

# Jon Bing Memorial Seminar

Gamle Festsal, Domus Academica, Karl Johans gt 47

University of Oslo

30th April 2014

The inaugural Jon Bing Memorial Seminar will take place on 30th April 2014. This is the day when Jon Bing would have turned 70 years old had he been alive. It was originally intended to be a day upon which he would be presented with a “Festschrift” in his honour, and be privy to speeches celebrating his career. Sadly, Jon passed away in January of this year. Yet, 30th April 2014 remains a day that calls for a remembrance and celebration of his remarkable achievements as scholar, writer, teacher, visionary and mentor. A similar seminar will be held on the same day and month in coming years.
