Constitutional traditions

Nordic

Minimalist – governing the democratic process

Continental

”a social market economy”

Double asymmetry

Social deficit

EU – the market

**Member states –
welfare state**

Democratic deficit

**The competence
over the market
executed by non-
political institutions
(ECB, Commission,
the Court)**

A problem?

Yes

1. More democratic control, stronger social dimension (Federalist)
2. Immunity for national welfare state

No

1. EU guaranties liberal market economy
2. Double asymmetry could provide both welfare state and free trade.
